Students are to prepare a PowerPoint presentation for the assigned space exploration. The Presentation shall include:

1. When the project began. This should be presented as a timeline of events in the program.
2. Where the project explored: the planet or part of the solar system. Pictures of the mission or spacecraft should be included.
3. List the major accomplishments of the various missions in the project. For example, the Gemini program: Discuss the accomplishment of each of the 12 missions of the Gemini program.
4. What were the discoveries or advancements of the project?
5. What part of space exploration came after your assigned project? For example, after the Mercury program, the Gemini program began.

Scoring:

95-100 Missing 1 point covered. Good Presentation.

90-94 Missing one to two points. Good presentation to average presentation.

84-89 Missing 2 to three major points. Good presentation to average presentation.

78-83 Missing 3 to 4 points. Good presentation to average presentation.

72-77 Missing 5 major points with still Good presentation to average presentation.

0 Failure to complete assignment.
